Center School Feasibility Study

Funds requested: \$600,000

Article 17 - Center School Feasibility Study

- ◆ The current facility falls short of guaranteeing access to all programs and opportunities for staff and students.
- ◆ This NEW Feasibility Study will address the Center School facility issues for Pre-K, Kindergarten and First graders while maintaining our current elementary grade spans.
- ◆ The Permanent Building Committee and Elementary School Building Committee were appointed to support a facility solution.
- ◆ The BOS, ESBC and SC have confirmed and supported the \$600,000.00 cost estimate for Study through Schematic Design.
- ◆ While the MSBA is not involved in funding this study, they are supportive of the timing and focus of this article.
